AIO GREEN PROJECT

Dear Valued Customers and Investors,

First of all, we would like to sincerely thank you for your interest in the AIO GREEN Project.

1. Background and Development Trends

In the era of Industry 4.0, the world and Vietnam are witnessing a strong boom in:

- Digital transformation, green transition, circular economy, and carbon credits.
- Artificial Intelligence (AI), automation, IoT, and Blockchain.
- Digital assets, cryptocurrencies, e-commerce, and global technology platforms.

Specially, many countries such as the United States, China, South Korea, Singapore, Japan, Thailand,…. and Vietnam are gradually improving legal frameworks to license, regulate, and manage digital assets and cryptocurrencies in this new era.

2. Vision of AIO GREEN

The AIO GREEN Project was established to keep pace with global trends, comply with both international and national laws, and pursue the following objectives:

- Building a transparent and sustainable global development roadmap.
- Respecting and ensuring the long-term interests of investors and the community.
